

General information

To install this software on Microsoft® Windows® NT® 4.0, Windows® 2000 or Windows® XP make sure you have administrator's rights.

To start from disk

Insert your disk into the CD-ROM drive. If you have Windows 9x, NT4, 2000 or Windows XP, the Setup program should start automatically. If the Setup program does not start automatically, double-click on **setup.exe** in the directory window of your CD-ROM drive.

To start from WinZip file

You only need to download Winzip file [SNVisionDemo.zip](#). Double-click on the WinZip file. The WinZip dialog appears, displaying the archived files. From the toolbar, click on the **Extract** icon. Make sure the **Extract to** field points to a temporary folder (*usually C:\Temp*). Click on the **Extract** button. The files are automatically copied into the temporary folder. Then, Open the temporary folder and Double-click on **setup.exe**.
